Is the human species a protector or destroyer? Here is our record

Deforestation

Habitat loss

Climate change

Poisoned Rivers

Species extinction

Consumer waste

Genetic modification

Poisoned - air, sea, land and people

We have something unique to offer

Islam offers clear guidance on how we should treat the earth, our only home.

The Islamic Foundation for Ecology and Environmental Sciences (IFEES) works to promote positive environmental initiatives based on Islamic principles for the benefit of all mankind.

“Corruption has spread far and wide over land and sea, due to the actions of humankind. Allah is giving them a taste of their own actions as a means of finding a way back to Him.”

Qur'an, Surah Ar-Rum (30)41

We believe that human beings were appointed guardians of the earth and we are dedicated to helping individuals and communities fulfil this role in a positive and rewarding way
